

Third party TGC compatible Wallet

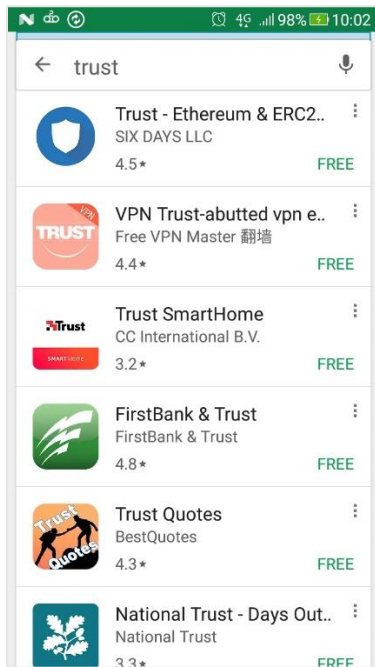

Installation and Operation Manual

Version 1.03

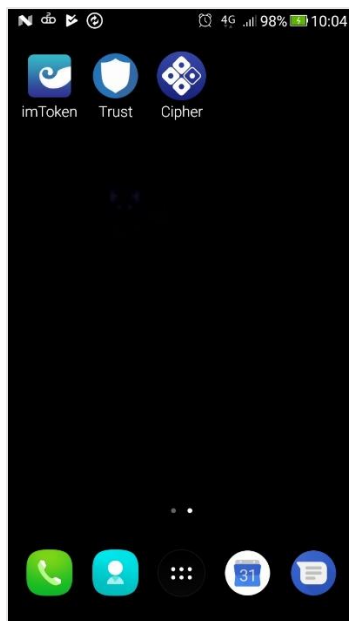

1. Installation

1.1. Download App “Trust – Ethereum & ERC20..” from Google Play (Android) or iTunes / App Store (iPhone). Just type “Trust Wallet” and be sure to pick the right one:

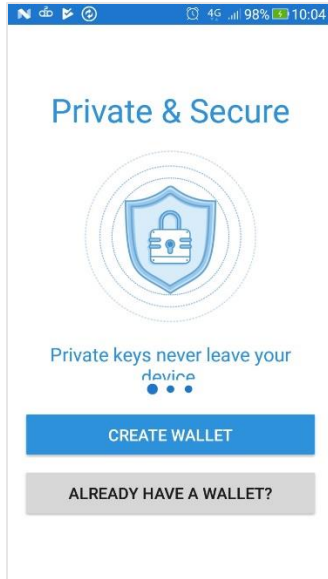

2. First Time Use

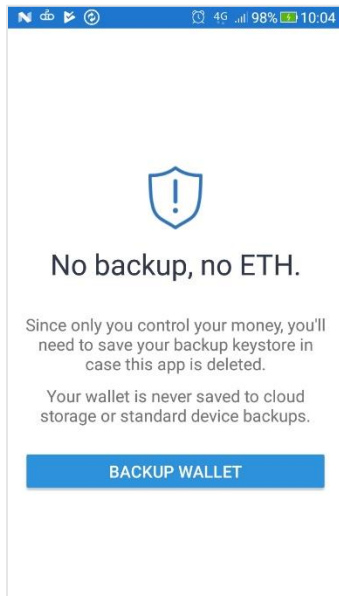

2.1. Launch Trust Wallet Application

2.2. Create Wallet: This instruction will tell the software to create a new wallet. This is done just once.

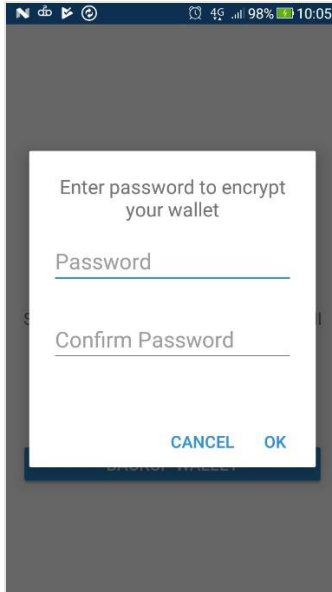

2.3. Backup Wallet: This will backup and encrypt your primary keys linked to your encrypted password.

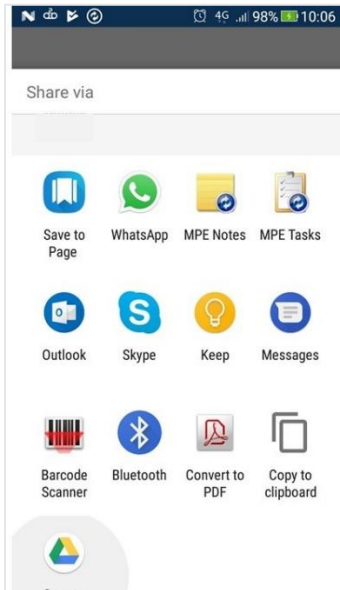

2.4. Enter Password to protect your Wallet: Choose a password that you will not forget.

2.5. Save your Wallet's Private Key, you can save the Private Key to a document, file, etc. Store it in a safe place.

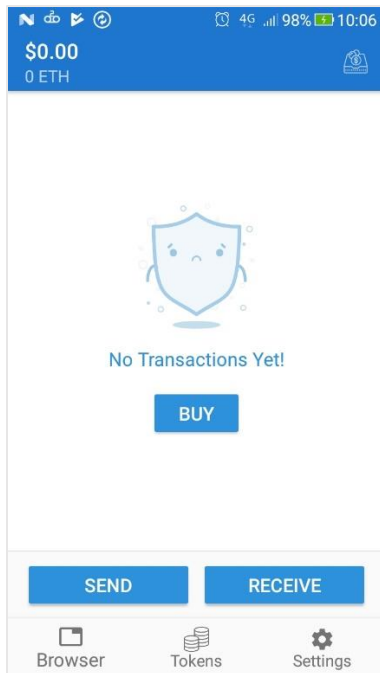

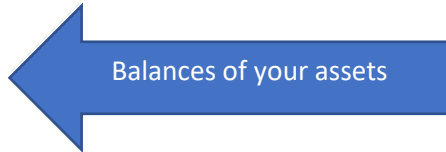

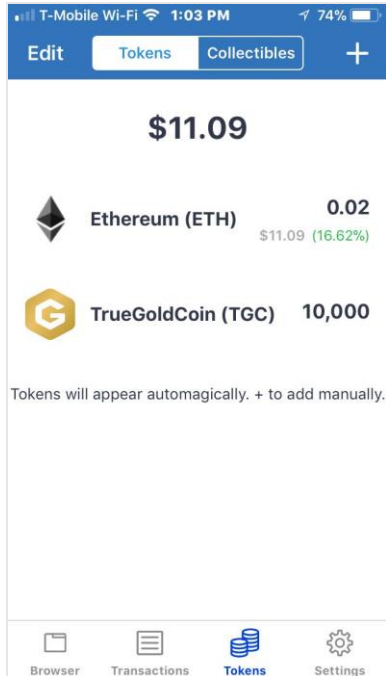

- 2.6. Report your Ethereum Address Account to Truevalue Holdings (TVH), when you buy TGC from TVH, you must send to TVH your Public Ethereum Address in the form of the QR code or the address string, then, TVH will transfer the TGC to you.

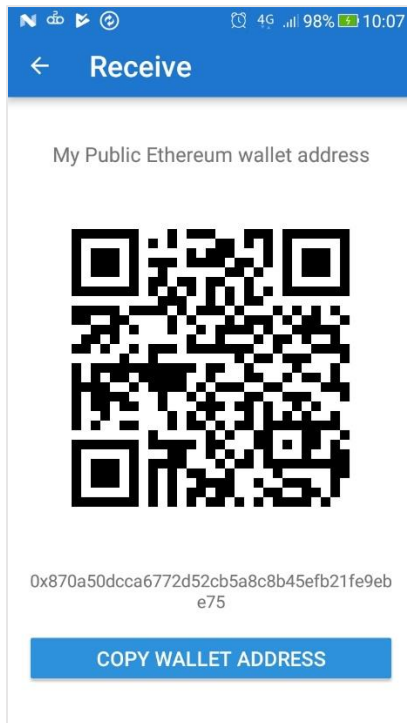

3. Use
 - 3.1. Check Your Balances, click on the “Tokens” tab below

3.2. How to Receive Ethereum or TGC, you must let the sender know your Public Ethereum Address, sending him the QR code or the alphanumeric string. The sender can read your QR code directly using his mobile phone, from this screen in your mobile phone.

3.3. How to Send TGC or Ethereum, please remember you must have some Ethereum in order to be able to send TGC, you can enter or paste the destination address or read the destination's QR code clicking in the small QR logo at the right, this will open the phone's camera.

The screenshot shows a mobile application interface for sending Ethereum (ETH). At the top, there is a blue header bar with a back arrow on the left, the text "Send ETH" in the center, and a "NEXT" button on the right. Below the header, the main content area is white. It features a "Recipient Address" label followed by a "PASTE" button and a small QR code icon. Below this is a horizontal line representing the input field for the recipient address. Underneath the line is the label "Amount ETH" followed by another horizontal line for the input field. The top of the screen shows a status bar with various icons and the time "10:07".
